

## SPECIFICATIONS

|                            |                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Model Name                 | GeForce RTX™ 4070 Ti VENTUS 3X 12G                                                                                                   |
| Graphics Processing Unit   | NVIDIA® GeForce RTX™ 4070 Ti                                                                                                         |
| Interface                  | PCI Express® Gen 4                                                                                                                   |
| Core Clocks                | Extreme Performance: 2625MHz (MSI Center)<br>Boost: 2610MHz                                                                          |
| CUDA® CORES                | 7680 Units                                                                                                                           |
| Memory Speed               | 21 Gbps                                                                                                                              |
| Memory                     | 12GB GDDR6X                                                                                                                          |
| Memory Bus                 | 192-bit                                                                                                                              |
| Output                     | DisplayPort x 3 (v1.4a)<br>HDMI™ x 1 (Supports 4K@120Hz HDR,<br>8K@60Hz HDR, and Variable Refresh Rate as<br>specified in HDMI 2.1a) |
| HDCP Support               | Y                                                                                                                                    |
| Power consumption          | 285W                                                                                                                                 |
| Power connectors           | 16pin x 1                                                                                                                            |
| Recommended PSU            | TBD                                                                                                                                  |
| Card Dimension (mm)        | 308 x 123 x 52 mm                                                                                                                    |
| Weight (Card / Package)    | 1150g / 1722g                                                                                                                        |
| DirectX Version Support    | 12 Ultimate                                                                                                                          |
| OpenGL Version Support     | 4.6                                                                                                                                  |
| Maximum Displays           | 4                                                                                                                                    |
| G-SYNC® technology         | Y                                                                                                                                    |
| Digital Maximum Resolution | 7680 x 4320                                                                                                                          |

## FEATURES

### Triple Fan

Three fans and a huge heatsink ensure a cool and quiet experience for you.

### TORX FAN 4.0

A masterpiece of teamwork, fan blades work in pairs to create unprecedented levels of focused air pressure.

### Core Pipe

Precision-machined heat pipes ensure max contact and spread heat along the full length of the heatsink.

### Airflow Control

Don't sweat it, Airflow Control guides the air to exactly where it needs to be for maximum cooling.

### Metal Backplate

Thermal pads under the sturdy metal backplate provide additional cooling while the flow-through ventilation reduces trapped heat.

### MSI Center

The exclusive MSI Center software lets you monitor, tweak and optimize MSI products in real-time.

## CONNECTIONS

1. DisplayPort
2. HDMI
