BL Tilt 800

Wall mount, tiltable

Item no.: 8416

The BL Tilt 800 is a tiltable wall mount for screens between 46 and 65“ / 116 - 165 cm for installation in landscape or portrait format.

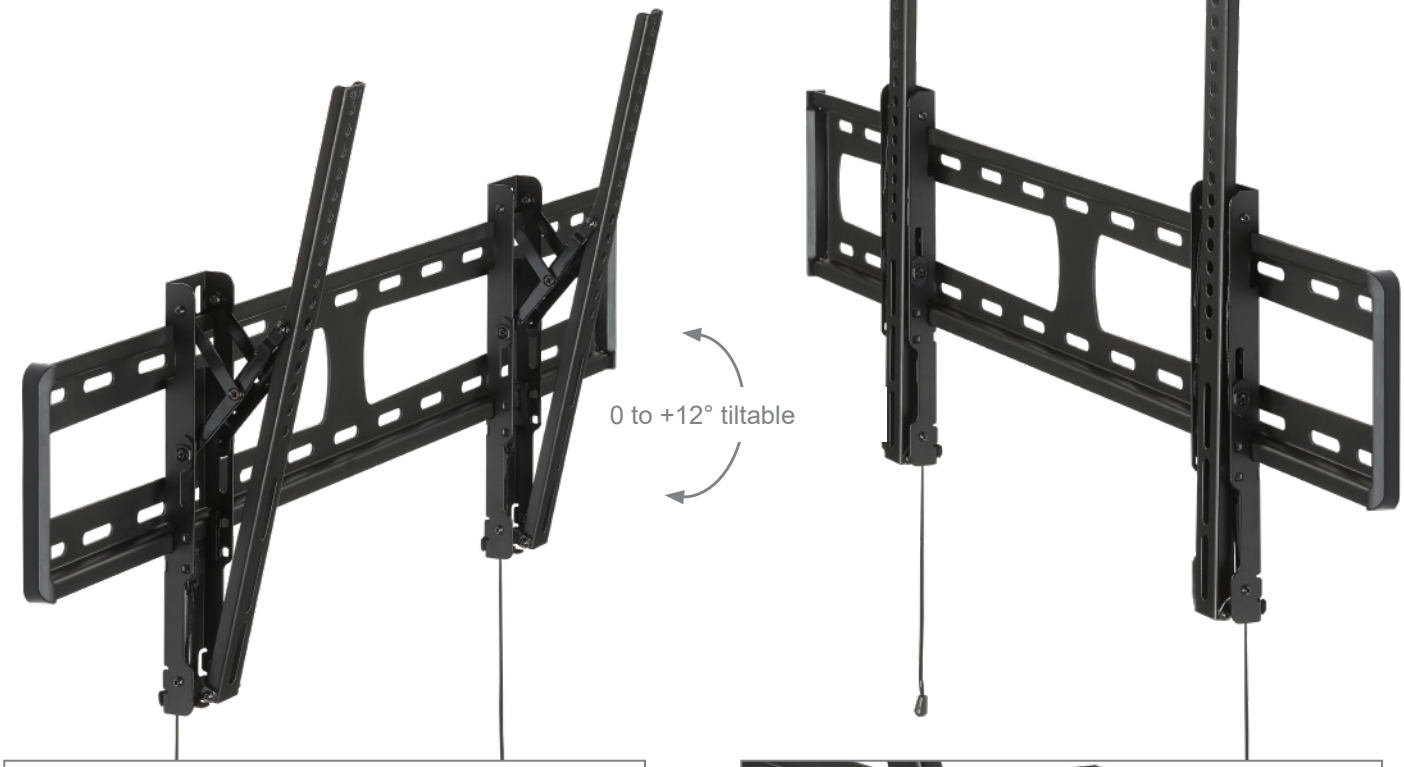

The infinitely adjustable inclination angle of up to 12° and the load capacity of 60 kg max. ensure that screens can always be fitted precisely and aligned at the optimum viewing angle.

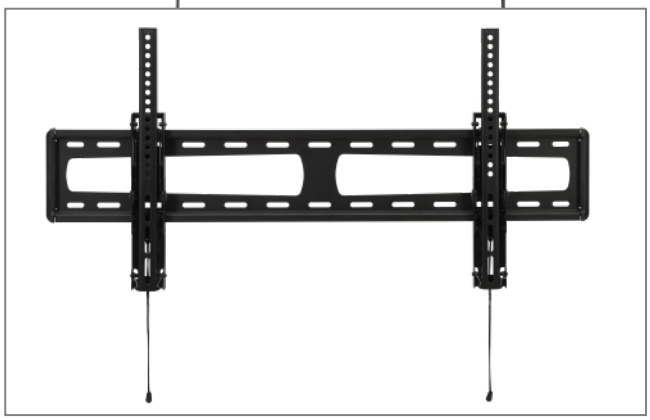

The VESA mounting standard is supported by the BL Tilt 800 mount up to a maximum size of VESA 800 x 600 mm.

A clever click system with unlocking function enables a secure hold and quick assembly. The quick-tension cables can be placed behind the screen using a magnet and, if necessary, can be easily pulled down to unlock the TV from the wall plate for cable access.

As a practical assembly aid, the bracket comes with an integrated bubble level, which supports quick and precise installation and guarantees the horizontal alignment of the bracket.

The extremely slim mount has a impact and scratch resistant powder-coating in black and saves a lot of space due to the small distance to wall of just 35 mm.

including VESA mount up to VESA 800 x 600 mm max.

stable construction for screen inclination
