Take gaming to the next level

This gaming monitor is an all-around display for intense PC games. FreeSync, a rapid 165 Hz refresh rate and 1 ms response time deliver smooth gameplay. The virtually frameless display with Ultra Wide-Color enhances the immersive visual experience.

The gaming advantage is yours

- AMD FreeSync™ Premium; tear free, stutter free, fluid gaming
- 165 Hz refresh rates for ultra-smooth, brilliant images
- 1 ms (MPRT) fast response for crisp images and smooth gameplay
- Low input lag reduces time delay between devices to monitor
- SmartImage game mode optimised for gamers

Immersive visuals

- IPS LED wide view technology for image and colour accuracy
- 16:9 Full HD display for crisp, detailed images
- Ultra Wide-Color wider range of colours for a vivid picture
- SmartContrast for rich black details

Features designed for you

- LowBlue mode and Flicker-free easy-on-the eyes viewing
- EasySelect menu toggle key for quick on-screen menu access

Highlights

AMD FreeSync™ Premium

Gaming shouldn't be a choice between choppy gameplay or broken frames. AMD FreeSync™ Premium equips serious gamers with a fluid, tear-free gameplay experience at peak performance. There are no compromises, game confidently with a high refresh rate, low framerate compensation and low latency.

165 Hz Gaming

You play intense, competitive gaming. You demand display with lag free, ultra-smooth images. This Philips display redraws the screen image up to 165 times per second, effectively faster than a standard display. A lower frame rate can make enemies appear to jump from spot to spot on the screen, making them difficult targets to hit. With 165 Hz frame rate, you get those critical missing images on the screen which shows enemy movement in ultra-smooth motion so you can easily target them. With ultra-low input lag and no screen tearing, this Philips display is your perfect gaming partner

1 ms MPRT fast response

MPRT (motion picture response time) is a more intuitive way to describe response time, which directly refers to the duration between seeing

blurry noise and clean, crisp images. The Philips gaming monitor with 1 ms MPRT effectively eliminates smearing and motion blur and delivers sharper and more precise visuals to enhance your gaming experience. The best choice for playing thrilling and twitch-sensitive games.

Low Input Lag

Input lag is the amount of time that elapses between performing an action with connected devices and seeing the result on screen. Low input lag reduces the time delay between entering a command from your devices to monitor, greatly improving play on twitch-sensitive video games, particularly important for playing fast-paced, competitive games.

SmartImage Game mode

The new Philips gaming display has quick-access OSD fine-tuned for gamers, offering you multiple options. "FPS" mode (First person shooting) improves dark themes in games, allowing you to see hidden objects in dark areas. "Racing" mode adapts the display with the fastest response time and high colour, along with image adjustments. "RTS" mode (Real-time strategy) has a special SmartFrame mode that enables highlighting of specific area and allows for size and image adjustments. Gamer 1 and Gamer 2 enable you to save personal customised settings based on different games, ensuring best performance.

IPS technology

IPS displays use an advanced technology that gives you extra-wide viewing angles of 178/178 degrees, making it possible to view the display from almost any angle. Unlike standard TN panels, IPS displays give you remarkably crisp images with vivid colours, making them ideal not only for Photos, movies and web browsing, but also for professional applications that demand colour accuracy and consistent brightness at all times.

LowBlue Mode and Flicker-free

Our LowBlue Mode and Flicker-free technology have been developed to reduce eye strain and fatigue often caused by long hours in front of a monitor.

16:9 Full HD display

Picture quality matters. Regular displays deliver quality, but you expect more. This display features enhanced Full HD 1920 x 1080 resolution. With Full HD for crisp detail paired with high brightness, incredible contrast and realistic colours, expect a true-to-life picture.

Specifications

Picture/Display

LCD panel type: IPS technology

Backlight type: W-LED system

Panel Size: 27 inch / 68.5 cm

Display Screen Coating: Anti-Glare, 3H, Haze 25%

Effective viewing area: 597.888 (H) x 336.312 (V)

Aspect ratio: 16:9

Maximum resolution: 1920 x 1080 @ 165 Hz*

Pixel Density: 81.59 PPI – TBC

Response time (typical): 4 ms (Grey to Grey)*

MPRT: 1 ms

Low Input Lag

Brightness: 250 cd/m²

SmartContrast: Mega Infinity DCR

Contrast ratio (typical): 1100:1

Pixel pitch: 0.3114 x 0.3114 mm

Viewing angle: 178° (H)/178° (V), @ C/R > 10

Flicker-free

Colour gamut (typical): NTSC 107%*, sRGB

122%*, Adobe RGB 90.4%*

Picture enhancement: SmartImage game

Display colours: 16.7 M

Scanning Frequency: HDMI: 30 – 160 kHz (H) / 48 – 165 Hz (V); DP: 30 – 200 kHz (H) / 48 – 165 Hz (V)

LowBlue Mode

EasyRead

sRGB

AMD FreeSync™ technology: Premium

Connectivity

Signal Input: HDMI 2.0 x 2, DisplayPort 1.2 x 1

HDCP: HDCP 1.4 (HDMI / DP); HDCP 2.2 (HDMI / DP)

Audio (In/Out): Audio out

Sync Input: Separate Sync

Convenience

Built-in Speakers: 5 W x 2

User convenience: Power On/Off, Menu/OK, Input/Up, Game Settings/Down, SmartImage game/Back

OSD Languages: Brazil Portuguese, Czech, Dutch, English, Finnish, French, German, Greek, Hungarian, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Simplified Chinese, Swedish, Turkish, Traditional Chinese, Ukrainian

Other convenience: Kensington lock, VESA mount (100 x 100 mm)

Plug and Play Compatibility: DDC/CI, Mac OS X, sRGB, Windows 10 / 8.1 / 8 / 7

Stand

Tilt: -5/20 degree degree

Power

On mode: 28.2 W (typ.)

Standby mode: 0.5 W (typ.)

Off mode: 0.3 W (typ.)

Energy Label Class: F

Power LED indicator: Operation – White, Standby mode – White (flashing)

Power supply: Internal, 100–240 VAC, 50–60 Hz

Dimensions

Product with stand (max height):

612 x 449 x 193 mm

Product without stand (mm):

612 x 365 x 55 mm

Packaging in mm (W x H x D):

780 x 525 x 186 mm

Weight

Product with stand (kg): 5.15 kg

Product without stand (kg): 3.70 kg

Product with packaging (kg): 9.28 kg

Operating conditions

Temperature range (operation): 0°C to 40 °C

Temperature range (storage): -20°C to 60 °C

Relative humidity: 20%–80 %

Altitude: Operation: +12,000 ft (3658 m), Non-operation: +40,000 ft (12,192 m)

MTBF: 50 000 (Excluded backlight) hour(s)

Sustainability

Environmental and energy: RoHS

Recyclable packaging material: 100 %

Specific Substances: Mercury free, PVC/BFR free housing

Compliance and standards

Regulatory Approvals: CB, CE Mark, FCC Class B, ICES-003, CU-EAC, EAEU RoHS, TUV/ISO9241-307, TUV-BAUART

Cabinet

Colour: Black

Finish: Textured

What's in the box?

Monitor with stand

Cables: HDMI cable, DisplayPort cable, Power cable

User Documentation

* "IPS" word mark / trademark and related patents on technologies belong to their respective owners.
* The maximum resolution works for either HDMI input or DP input.
* For best output performance, please always ensure that your graphic card is capable of achieving the maximum resolution and refresh rate of this Philips display.
* Response time value equal to SmartResponse
* MPRT adjusts the brightness for blur reduction, so the brightness cannot be adjusted while MPRT is turned on. To reduce motion blur, the LED backlight will strobe in time with the screen refresh rate, which may cause a noticeable change in brightness.
* MPRT is a gaming-optimised mode. Turning on MPRT may cause noticeable screen flickering. It is recommended to turn this mode off when you are not using the gaming function.
* NTSC Area based on CIE 1976
* sRGB Area based on CIE1931
* Adobe RGB Coverage based on CIE 1976
