

SELENE01B 2-Port Bi-Directional HDMI 2.0 Switch, 4K60Hz

Product Images

Short Description

- **Versatility:** Bi-directional routing (2-in/1-out or 1-in/2-out).
- **UHD Performance:** Supports high-fidelity resolutions up to 4K 60Hz.
- **Control:** Single-button operation for effortless device switching.
- **Sync:** HDMI 2.0 compliant for synchronized video and audio data.
- **Installation:** Tool-free, compact design for streamlined setups.
- **Efficiency:** Eliminates the need for frequent cable swapping.

Description

The Conceptronic SELENE01B is a high-performance bi-directional HDMI 2.0 switch designed to solve the complexity of multi-device routing. It acts as a definitive signal bridge, allowing you to either switch between two HDMI sources on a single display or toggle one source between two separate displays. This unit provides a stable and secure interface for ultra-high-definition content, supporting native 4K 60Hz resolutions for synchronized visual clarity.

Built with an intuitive one-button control system, the SELENE01B effectively simplifies cable management in both home entertainment and professional office environments. Its durable architecture ensures unthrottled signal transmission, making it a professional energy hub for users who require flexible and seamless transitions between consoles, streaming devices, or workstations.
