Made to perform

- Aroma twister to provide a great taste and rich aroma
- Up to 15 cups of coffee
- Drip-stop feature to prevent coffee spillage
- Fast brew time and automatic shut-off
- Easy-to-read water level indicator

Highlights

Enjoy great taste and aroma

The smart nozzle inside the jug circulates the inflowing coffee evenly throughout the jug, for an optimal, consistent aroma, from the first to the last cup.

Large 1.2 L capacity

This coffee maker can brew from 2 cups or up to 10 large or 15 small cups of coffee, with a maximum capacity of 1.2 litres. Even with its large capacity, its compact design takes up minimal space on your countertop.

Drip-stop

The drip-stop feature allows you to pour a cup of coffee before the full brewing cycle is finished, preventing coffee from spilling.

Energy efficient

Automatic shut-off feature turns the appliance off after 30 minutes to help save energy and provide extra safety. A full jug is brewed in 10 minutes to further save energy.

External water level indicator

The easy-to-read water level indicator allows you to fill the water tank to your desired level, ensuring that you don't waste energy and brew only the amount of coffee that you need.

Recyclable and Durable

Sustainably designed using 100% Bio-based plastics** to reduce its CO2 footprint by 24%*. This breakthrough material is sure to have a big impact on your kitchen while supporting a more positive outcome for the environment.

Safe and Sustainable

100% Bio-based plastics** are made from biological and renewable resources, like sunflower oil. Used oil left over from cooking is collected and recycled through an eco-friendly process to make it suitable for contact with food.

Modern and Minimalistic

Sustainability never looked more stylish, with silk white matte finish to look sensational in your kitchen.

Pure and Simple

Nature-inspired design with calm colours and natural materials. Includes detachable lid and glass jug - each designed for easy use and cleaning.
