CORSAIR

Embargo Date	21-Oct-21
First Customer Ship Date	21-Oct-21
Product Etail Title	CORSAIR Hydro X Series XC7 RGB PRO CPU Water Block - Intel® LGA 1700, 1200, 115X - AMD Socket AM4 - Nickel-Plated Copper Cold Plate - Black- More Than 110 Micro-Cooling Fins - 16 Vivid RGB LEDs
Product Title	CORSAIR Hydro X Series XC7 RGB PRO CPU Water Block (1700/1200/AM4)
Product Name	XC7 RGB PRO
Pre-Order Option	No
Product Imagery Link	LINK

Overview

25 Word Product Description

The CORSAIR Hydro X Series XC7 RGB PRO CPU Water Block combines premium construction, vivid RGB lighting, and extraordinary cooling performance with an advanced nickel-plated copper cold plate and more than 110 micro-cooling fins.

Overview

50 Word Product Description

The CORSAIR Hydro X Series XC7 RGB PRO CPU Water Block combines premium construction, vivid RGB lighting, and extraordinary cooling performance thanks to an advanced nickel-plated copper cold plate, innovative quad-split flow design, and more than 110 high-efficiency micro-cooling fins. 16 Individually addressable RGB LEDs deliver 360° of customizable RGB lighting, controllable with a CORSAIR iCUE RGB Lighting Controller or with compatible motherboards.

Overview

100 Word Product Description

The CORSAIR Hydro X Series XC7 RGB PRO CPU Water Block combines premium construction, vivid RGB lighting and extraordinary cooling performance. A precision-machined advanced nickel-plated copper cold plate with more than 110 high-efficiency micro-cooling fins, along with an innovative quad-split flow design, draw the maximum amount of heat from your CPU, dropping temperatures by up to 4°C compared to the previous generation XC7 RGB and helping you push your clock speeds to their limit. The XC7 RGB PRO lights up your build with 16 individually addressable RGB LEDs for 360° of customizable RGB lighting, controlled by a CORSAIR iCUE RGB Lighting Controller (sold separately) and powerful CORSAIR iCUE software. An included 5V ARGB adapter cable allows for alternative motherboard control.

Features

Style 1

- A precision-machined nickel-plated copper cold plate with more than 110 high-efficiency micro-cooling fins, combined with an innovative quad-split flow design, efficiently draws heat away from your CPU, reducing temperatures by up to 4°C lower than the previous generation XC7 RGB.
- Built from durable nylon with reinforced standard G1/4" threads, the XC7 RGB PRO will keep your CPU running at its best, and coolest, for years to come.
- 16 Individually addressable RGB LEDs deliver 360° of stunning customizable RGB lighting effects. Add a CORSAIR iCUE Controller (sold separately) and powerful CORSAIR iCUE software to customize and sync RGB lighting across all your iCUE-compatible products including other water blocks, pumps, fans, keyboard, and more.
- A transparent flow chamber shows off your coolant and enhances RGB lighting.
- Includes a 5V ARGB motherboard adapter cable to alternatively control lighting via compatible motherboards.
- Easy and fast installation on Intel® LGA 1700, LGA 1200, LGA 115X, or AMD Socket AM4 with pre-installed mounting screws and pre-applied thermal material.

Style 2

- **Extraordinary Cooling Performance:** A precision-machined nickel-plated copper cold plate with more than 110 high-efficiency micro-cooling fins, combined with an innovative quad-split flow design, efficiently draws heat away from your CPU, reducing temperatures by up to 4°C lower than the previous generation XC7 RGB.
- **Durable Nylon Construction with Reinforced Standard G1/4" Threads:** Built for long-lasting durability, the XC7 RGB PRO will keep your CPU running at its best, and coolest, for years to come.
- **Vivid Integrated RGB Lighting:** 16 Individually addressable RGB LEDs deliver 360° of stunning customizable RGB lighting effects. Add a CORSAIR iCUE Controller (sold separately) and powerful CORSAIR iCUE software to customize and sync RGB lighting across all your iCUE-compatible products including other water blocks, pumps, fans, keyboard, and more.
- **See Your Cooling:** A transparent flow chamber shows off your coolant and enhances RGB effects.
- **5V ARGB Motherboard Adapter Cable Included:** Alternatively control lighting via compatible motherboards.
- **Easy to Install:** Effortlessly fit to Intel® LGA 1700, LGA 1200, LGA 115X, or AMD Socket AM4 CPUs with pre-installed mounting screws and pre-applied thermal material.

Tech Specs

Product Type	CPU Water Block
Cold Plate Fins	110+
Cold Plate Material	Nickel-Plated Copper
Fluid Chamber Material	Nylon
Socket Compatability	Intel 1700 | Intel 1200 | Intel 115X | AMD AM4
Compatible Materials	Only mix with other copper / brass products
Compatible Coolants	CORSAIR XL or equivalent
Port Thread	G1/4" BSPP
Max Operating Temperature	60°C coolant temperature
Thermal Material	Pre-applied thermal paste
Required Controller For iCUE Support	CORSAIR Commander pro / Commander Core XT / Lighting Node PRO
Lighting	RGB
Color	Black

Box Contents

XC7 RGB PRO CPU Water Block
Intel LGA 1200/1700 bracket with pre-installed mounting screws
AMD AM4 bracket with pre-installed mounting screws
Backplate
RGB adapter cable
