

168050

LED module for Corona lighting Berker Q.7, transparent

Technical features

Architecture

Type of order	direct
---------------	--------

Main electrical features

Nominal voltage	230 V
-----------------	-------

Power

Current consumption	max. 5 mA
---------------------	-----------

Materials

Material	plastic
----------	---------

Lighting control

Light colour	white
Type of lamp	LED not exchangeable

Installation, mounting

- clamp fastening	
-------------------	--

Cable

Line length	≈ 6 cm
Line length	6 cm

Equipment

With lighting	yes
- for lighting and monitoring circuit ;	

Identification

Main design line	Berker Q.7
------------------	------------
