

Product name: ENDORFY Thock TKL Palm Rest
Product code: EY0E008

When you spend a lot of time at the computer, you start to appreciate the little things that elevate your work ([and life](#)) comfort. For example, a palm rest like a pillow. That's exactly what the ENDORFY Thock TKL Palm Rest is – soft padding that you can attach to your Thock TKL keyboard.

We gave it a solid [magnetic](#) mount and 6 rubber feet. You can use it without worrying about it escaping from your hands. This bad boy holds the tabletop steadily even when it stays a few centimeters from the keyboard. We know that there is no one-size-fits-all solution to comfort.

[Elegant](#) and low effort

The Thock Palm Rest is elegant and easy to maintain. We're proud of it, like a newbie defeating their first boss.

It's made of PU Leather that looks like [real](#) leather, but it doesn't dry out or crumble over time. It's also easy to clean – just wipe it with a damp cloth to make it look new again.

Ready [Assembled](#) in one second

The installation of the Thock TKL Palm Rest takes a second - literally. Just attach it to the keyboard, and the palm rest will "stick" to it tightly, like posters from the 90s stuck to wallpapers. =Done and dusted! Enjoy your time without having to worry about it sliding around uncontrollably.

[Magnetic](#) mounts — the technology of the future. You'll get magnets for the keyboard's side too, with simple instructions on how to attach them to the bottom of your device. It's a great option especially if you don't like mechanical latches – magnets are invisible and withstand even strong pulls.

6 rubber feet

The Thock TKL Palm Rest sticks to your desk even during the most intense virtual battles. It doesn't slide around on the tabletop, even when placed at a distance from the keyboard (because who said that palm rests must always be in the same spot?).

This is thanks to the 6 [rubber](#) feet that we slapped on the bottom. Each of them stabilizes the Thock TKL Palm Rest and makes sure that it doesn't move on the tabletop.

ENDORFY Thock TKL Palm Rest – main features:

- ENDORFY Thock TKL series compatible
- Magnetic mounting
- Soft touch PU leather cover
- Memory foam inside

ENDORFY Thock TKL Palm Rest – technical specifications:

- Product code: EY0E008
