Whether you are gaming or working - the Lenovo G27ge-20 Monitor leaves no stone unturned in delivering an uncompromised display performance Designed with a massive 27-inch 2560 x 1440 QHD resolution IPS display, see every detail loud and clear. This large screen size does not come at the price of your eyes getting strained. The Lenovo G27ge-20 monitor is TÜV Eyesafe and TÜV Hardware Low Blue Light certified, and equipped with Natural Low Blue Light technology that automatically reduces high-frequency blue light to protect your eyes. The 100 Hz (overclock to 110 Hz) refresh rate makes every motion look stunning. The dazzling fast 1ms MPRT<sup>1</sup> response time gives you an enhanced gaming experience with no streaking and ghosting. Get optimal display performance while gaming with the integrated VRR technology (AMD FreeSync<sup>™2</sup>) that delivers perfect sync between the display and the GPU. Additionally, it also comes loaded with Lenovo Artery Software<sup>3</sup> to elevate the visual experience during your gaming action. With a mammoth size and a superior performance - the Lenovo G27qe-20 monitor makes winning in gaming or working absolute ease.

#### A dazzling gaming performance

The Lenovo G27qe-20 monitor's 100 Hz (overclock to 110 Hz) refresh rate never lets you miss a detail, no matter how fast-paced the action is, by reducing stuttering and latency. Be the first one to strike an attack with the blazing-fast Ims MPRT<sup>1</sup> response time. AMD FreeSync<sup>™</sup> technology<sup>2</sup> gives gamers an edge by predicting and aligning the display's refresh rate with the GPU's frame rate.

#### Your perfect wingman

The Lenovo G27qe-20 comes loaded with the Lenovo Artery Software<sup>3</sup> that lets you select from a range of preset Game Mode Settings or customize and save your preferred configurations. The software's Gaming Tools feature provides you with special tools, including Show Frame Rate, Show Timer, Show Aim Point, and Shortcut Key setting to help you become a dominating champion. Expand the way you see and listen to your game-environment by adding audio/video devices via HDMI 2.0, DP 1.2, and 3.5 mm Audio Out ports.

<sup>1</sup> Moving Picture Response Time (MPRT) improves the response time and reduces motion blur in the monitor. Enabling MPRT will disable AMD FreeSync<sup>™</sup>, and you may notice a negligible flicker.

 $^{\scriptscriptstyle 2}\,$  This software can only be used with Windows 10.

<sup>3</sup> AMD FreeSync<sup>™</sup> only can work with AMD Radeon<sup>™</sup> series graphics card.
