

DATASHEET

LIFEBOOK® P771 NOTEBOOK

THE IDEAL SOLUTION FOR HIGHLY MOBILE PROFESSIONALS, FREQUENT TRAVELERS, AND TECHNOLOGY ENTHUSIASTS

PORTABLE PERFORMANCE

With a configurable weight of about 3 pounds, overall dimensions of approximately 11.1" x 8.46" x 1.18", and the 2nd Generation Intel® Core™ i7-2617M Processor, the LIFEBOOK P771 notebook delivers on its ultra-portability, ultra-performance promise. With vPro™ technology (available with Intel LAN), you will find that your notebook quickly adapts to your business needs with smart security, cost-saving manageability, and intelligent mobile performance.

The modular bay allows you to customize your computer to best fit the task at hand. The modular bay battery will extend battery life to about 12 hours. You can also insert a modular dual-layer multi-format DVD writer for long trip entertainment or presentations. The weight saver module is great for when you just want to travel light.

The optional built-in camera is ideal for visually demonstrating a complicated procedure over the web.

The two integrated USB 3.0 ports transfer data at 4.8Gb a second. In other words, a 25 GB file can be transferred in 70 seconds compared to nearly 14 minutes for USB 2.0. The USB 3.0 port is also completely downward compatible. The LIFEBOOK P771 notebook also comes with a USB 2.0 port, which has the added functionality of Anytime Charge so you can charge your other mobile devices (i.e. your cell phone) by simply attaching them to this port.

This computer also features an ECO button. By simply pushing this button, the LIFEBOOK P771 notebook will instantly go into conservation mode extending the life of your battery.

SECURITY

The LIFEBOOK P771 notebook has an integrated biometric fingerprint sensor. With the included Softex OmniPass software, you only need to swipe your finger or remember a single master password to keep all of your system log-ins and data protected. Additionally, the LIFEBOOK P771 notebook has an embedded

Trusted Platform Module (TPM) that can store data file passwords/keys on a microchip to help protect your data. In a worse-case scenario, Computrace® (service sold separately) will help track down your stolen notebook.

Pre-Boot Authentication (PBA) is yet another security feature at your disposal. It identifies you as the proper user before your computer boots up, asking for a username and password the moment you turn on the computer. Pre-Boot Authentication is important because it disables workarounds to computer security. Keep in mind that password-protection can be easily bypassed without guessing at the correct password. The PBA feature of the LIFEBOOK P771 notebook is key to keeping your private data private.

FLEXIBILITY

For office or home, the integrated Gigabit Ethernet LAN provides a simple wired solution.

The LIFEBOOK P771 notebook includes a vast array of ports that you would typically find on a much larger notebook computer. It comes with two USB 3.0 ports one USB 2.0 port, and stereo headphones and microphone jacks. For displays you have the flexibility of a standard VGA port, or an HDMI connector for viewing DVDs on a large HD screen. Using the Port Replicator, you will find that the DVI-D makes an excellent high quality digital connection (cannot be simultaneously used with the display port). The Port Replicator also has an e-SATA port which provides a very fast way to transfer large files to a compatible external drive. For fast and easy storage/ transfer of data, the LIFEBOOK P771 notebook is equipped with an SD slot.

UNCOMPROMISING QUALITY

Fujitsu takes pride in its own world-class design, and rigorous testing. Fujitsu provides extremely high quality mobile computers with one of the lowest failure rates in the industry.

- POWERED BY THE 2ND GENERATION INTEL® CORE™ I7-2617M VPRO™ PROCESSOR—UP TO 2.6 GHZ WITH TURBO BOOST
- ECO BUTTON AND GESTURE TOUCHPAD
- RELIABILITY FEATURES, INCLUDING SHOCK SENSOR, MAGNESIUM-ALLOY COVER, AND SPILL-RESISTANT KEYBOARD
- FLEXIBLE SECURITY WITH TRUSTED PLATFORM MODULE (TPM), FINGERPRINT SENSOR, PRE-BOOT AUTHENTICATION (PBA), HDD & BIOS PASSWORD PROTECTION, AND COMPUTRACE® SUPPORT
- MODULAR BAY ENABLES THE KIND OF FLEXIBILITY YOU NEED TO BE TRULY MOBILE

TECHNICAL DETAILS

SOFTWARE

OPERATING SYSTEM: Genuine Windows® 7 Professional 32-bit (MUI), or Genuine Windows® 7 Professional 64-bit (MUI)

SOFTWARE: Adobe Reader®, Norton Internet Security 2011™¹ (60-day free trial), Google Tool Bar, CyberLink

PowerDVD, CyberLink PowerDirector, CyberLink MakeDisc, Roxio Creator, Fujitsu Driver Update utility, Microsoft® Office Starter 2010², Windows® Live Essentials, Microsoft® Silverlight®

OPTIONAL SOFTWARE: Depending upon your system's configuration, you may also receive Softex OmniPass Fingerprint application, CyberLink YouCam

KEY SPECIFICATIONS

(Listed specifications are for the current model only and not for earlier models or revisions to this product.)

PROCESSOR: 2nd Generation Intel® Core™ i7-2617M vPRO™ Processor (1.50 GHz, 4 MB L2 cache, 1333 MHz FSB) with Turbo Boost up to 2.6 GHz

CHIPSET: Mobile Intel® QM67 Express

SYSTEM MEMORY: Two DIMM slots; (one user accessible) Max. 8 GB (4 GB x 2) DDR3 1,333 MHz memory

DISPLAY

LCD	12.1" Crystal View Wide XGA LED backlit display with Anti-Glare option
Video Controller	Integrated Intel® HD Graphics
Resolution	Maximum internal display: 1280 x 800, 16M colors External monitor display: (Max.) 1920 x 1200, 16M colors Simultaneous display: (Max.) 1280 x 768 16M colors

HARD DRIVE³: 160 GB, 320 GB, 500 GB (5400rpm), 320 GB (5400rpm) with full disk encryption, 160 GB, 320 GB, 500 GB (7200rpm), S-ATA 150 Mbps, shock mounted; 128 GB solid state drives (MLC) both with full disk encryption

WEB CAMERA: Optional 2.0 mega-pixel webcam

OPTICAL DRIVE: Modular Dual-Layer Multi-Format DVD Writer

AUDIO: Realtek® ALC269 with HD Audio

COMMUNICATION: 10/100/1000 Gigabit Ethernet LAN

WIRELESS COMMUNICATION: Intel® Centrino® Advanced-N 6205 (802.11 a/b/g/n, or Atheros XSPAN® (802.11 a/b/g/n), optional Bluetooth, Intel® Wireless Display (WiDi), Wireless LAN antenna with pre-installed on/off switch

USER INTERFACES: Spill-resistant 82-key keyboard Touchpad cursor control pad with left and right buttons, and scroll wheel

PORTS: Two USB 3.0 ports, One USB 2.0 port (with Anytime Charge), Gigabit Ethernet LAN (RJ-45), Headphone/audio-out jack, Microphone/ audio-in jack, HDMI, VGA connector, Docking connector

CARD SLOTS: ExpressCard® slot, Secure Digital (SD) Card slot

SECURITY: Biometric Fingerprint Sensor, embedded Trusted Platform Module (TPM), HDD and BIOS password protection, security panel, optional Computrace® protection, security lock slot

BATTERY⁴: Main Lithium ion battery (6-cell, 63W, 10.8V, 5800 mAh); up to 8 hrs. and 30 mins.

Main Lithium ion battery (6-cell, 63W, 10.8V, 5800 mAh) and Modular bay Lithium ion battery; up to 12 hrs. and 10 mins.

High-capacity Lithium ion battery (6-cell, 67W, 10.8V 6200 mAh); up to 9 hrs.

High-capacity Lithium ion battery (6-cell, 67W, 10.8V 6200 mAh), and Modular bay Lithium ion battery; up to 12 hrs. and 50 mins.

AC ADAPTER: Auto-sensing dual voltage support, 100-240V AC supplying 19V DC, 3.16A, 60W

DIMENSIONS AND WEIGHT: Approx. 2.89 lbs. with 6-cell battery and weightsaver. Approx. 11.1" (w) x 8.46" (d) x 1.18" (h); Approx. 3.1 lbs. with 6-cell battery and optical drive

OPERATING TEMPERATURE: 41° F to 95° F/5° C to 35° C (ambient temperature); 20% to 85% relative humidity, non-condensing

NON-OPERATING TEMPERATURE: 5° F to 140° F/-15° C to 60° C; 8% to 85% relative humidity non-condensing

KEY ACCESSORIES: Port Replicator, Battery Charger, Additional Battery, Additional AC Adapter

1) Preinstalled with a free 60-day trial version of Symantec Norton Internet Security 2008. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.

2) Microsoft® Office Starter 2010 (32 bit) includes reduced-functionality versions of Word® and Excel® only, with advertising. No PowerPoint® or Outlook®. Purchase Microsoft Office 2010 to activate a full-featured suite.

3) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.

4) Battery life tested using MobileMark 2007 and may include audio muted. Battery life will vary depending on the product configuration, product model, application loaded on the product, power management settings on the product, Operating System, and the product features used by the customer. As with all batteries, the maximum capacity of the installed batteries will decrease with time, usage, and how often the batteries are charged by the user.

5) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America
