

I1601P

15.6 inch (39.5 cm) LCD MONITOR

Ultra-light, portable, one cable solution

IPS WIDE VIEW

PORTABLE

SMART COVER

USB C

Portable, elegant solution

The I160 looks gorgeous and is durable with its metal alloy case. While being just 8.5 mm thick and weighing ultra-light 800 g it is easy to travel with for work or study. It also easily fits in most notebook bags.

Travelling and commuting

If you work on the go, whether you're commuting or often working far from home, you need to boost your productivity in places and situations when a complete desktop setup is just impossible and unlikely to have. With the lightweight and easy-to-handle size of AOC portable monitors, you can always be efficient ... anytime, anywhere. Working has never been so easy: when visiting your customers, their ergonomics help you focus on the core of your meetings!

Business meetings

An AOC portable monitor is the perfect solution for business meetings. You can share with your customers and partners a document, or a presentation, while keeping an eye on all other apps you need for work on your laptop. This helps in delivering tasks with no distractions, for you and your audience.

Home use - Solve the "too little space issues"

Sometimes a traditional monitor is not what you're really looking for, the more so if you live in a small apartment and you can't have a complete desktop layout. But AOC has the perfect solution, in roughly 16", that can assure you more screen space and more comfort.

One cable solution USB-C + USB displaylink

More on-screen estate is just a cable away. Thanks to the hybrid connection, you can easily connect your laptop to the portable monitor. Specifically, if your laptop has a USB-C port compatible with DP alt, you may use USB-C. If not, you can connect via USB with the DisplayLink technology in our portable monitor.

IPS and FHD

For optimum productivity and comfortable collaboration, this model features IPS technology that gives crisp visuals, colour accuracy and wide viewing angles. Visualisation is enhanced by the FHD resolution.

Ultra-light aluminum design

Functional connectivity, full productivity, and extreme portability in only 800 grams, with a sleek design and aluminum back. With a light weight and an easy-to-handle size, you can always be efficient... anytime, anywhere, with no side hassles and bothers.

Productivity anywhere you go

More screen real-estate significantly increases productivity. With your monitor connected to your laptop you can be efficient even outside your home or office – when travelling or, visiting customers.

Home use - Multi setup

Portable monitors are also worthy allies in multi-monitor set-ups at home. They are a space-efficient and powerful solution that can be used in your home setup for complete and extensive visualization, but also a solution that can fit everywhere in your house for any need. Thanks to a single USB cable that transfers data to the screen and acts as an energy-efficient power source, you can enhance your work efficiency while maintaining a clear and sleek desk for a stylish solution for any workplace or home interior.

Smart cover

The included smart cover protects your display inside or outside your bag against dirt and damage. When the display is in use, the cover acts as a flexible screen holder, in portrait or landscape mode.
