# MasterBox Pro 5 RGB

MCY-B5P2-KWGN-01

## You Decide the Inside

The MasterBox Pro 5 RGB's straightforward design comes with three 120mm RGB fans installed behind the DarkMirror front panel and a 4mm thick edge to edge tempered glass side panel which give the case an unique outlook and various options to show off your build inside.

The interior offers conveniently placed cut-outs, making component installation, interior expansion, and multiple interior layouts simple and easy. It can also support large, high-end components, several fans and DIY liquid cooling. Keep your system looking clean with numerous routing holes and a cover for your PSU.

You Decide the Inside!
