

17,000 POWER BANK

PB17000P

TECHNICAL SPECS

- Dual USB ports with 4.2A total output power (2.1A and 2.1A) allow for simultaneous charging
- Ultra-Slim Design slips easily into any bag or briefcase
- Built-in smart IC maximizes charging efficiency by detecting optimal charge
- Digital LED display clearly shows the percentage of remaining power
- No hassle, worry free 1 year warranty.

Battery Type:
Lithium Polymer

Device Charge:
5-8x Smartphone

Battery Capacity:
17000mAh

Maximum Output Power:
21W (5V 2.1A port and 2.1A port)

Product Weight:
538g

DESCRIPTION

The Ultra-Slim and stylish 17,000 mAh Dual USB Powerbank with Aluminum finish is the perfect travel companion. So slim, it easily slips into your bag yet has enough power to recharge even the most power-hungry tablet. Charge two devices at the same time quickly with high output power from each port. The powerbank features a Smart IC chip so it can deliver the optimum charge for each device, plus the LED display lets you quickly know exactly how much power you have remaining – no more guesswork. Additionally, it includes a no hassle, worry-free 1 year warranty.
