Connect to the chime

① Make sure the chime is loaded with usable batteries.
② Press the configuration button of the chime. The indicator light will flash and you will hear a tone indicating it enters pairing mode.

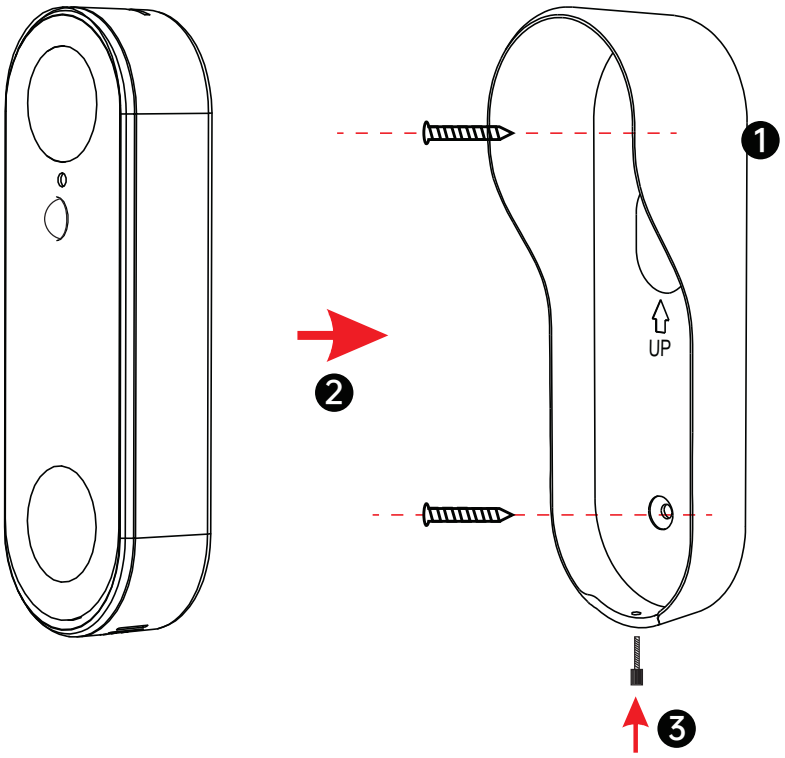

③ Press the call button on the video doorbell to request pairing within 30 seconds.
④ The chime indicator light stops flashing and rings when pairing is successful.

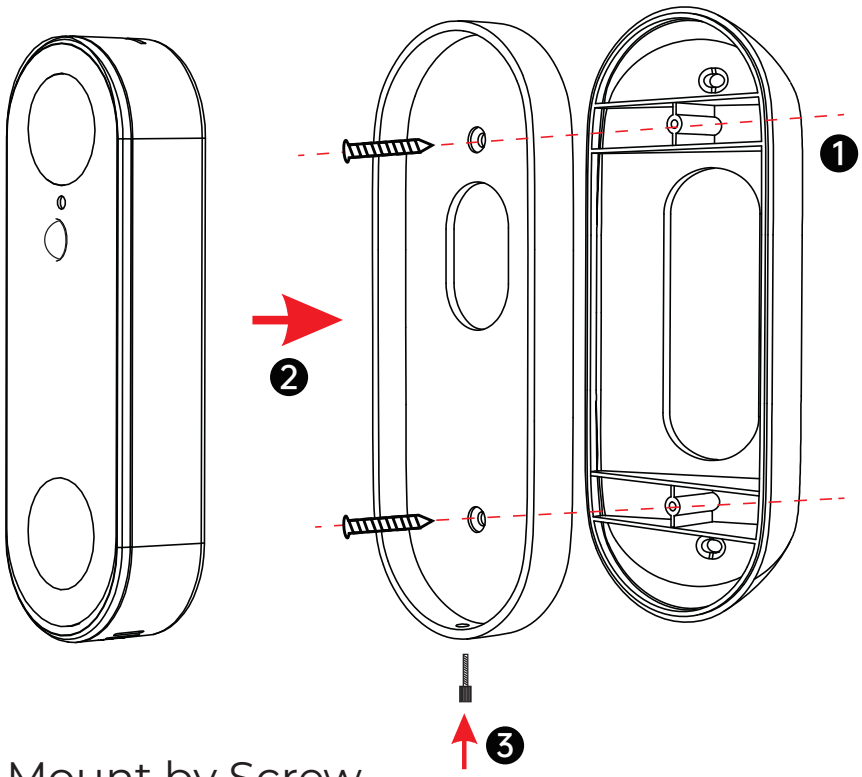

Chime buttons

Configuration Button	Reset/Single press to enter configuration mode
Volume Button	Loop button to adjust volume level
Music Button	Loop button to switch music

non-15-degree mounting bracket

15-degree mounting bracket

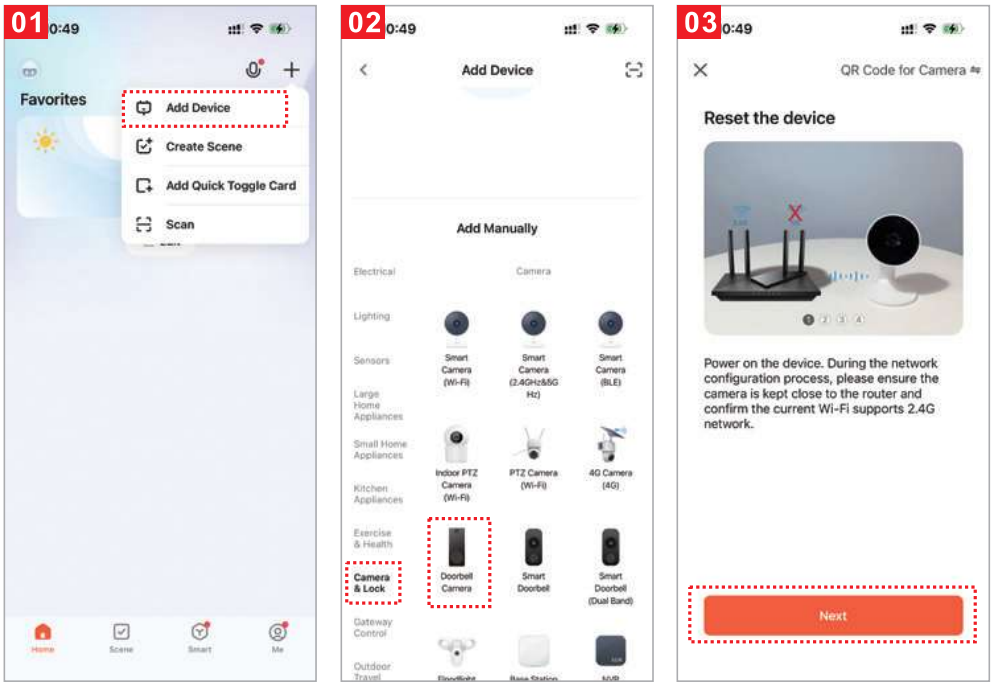

1. Mount by Screw
2. Insert the doorbell
3. Tight it by the screw

Install APP

Download APP: scan the QR code below to download and install.
Register and login: open the " Tuya Smart " APP to register and login according to the prompts.

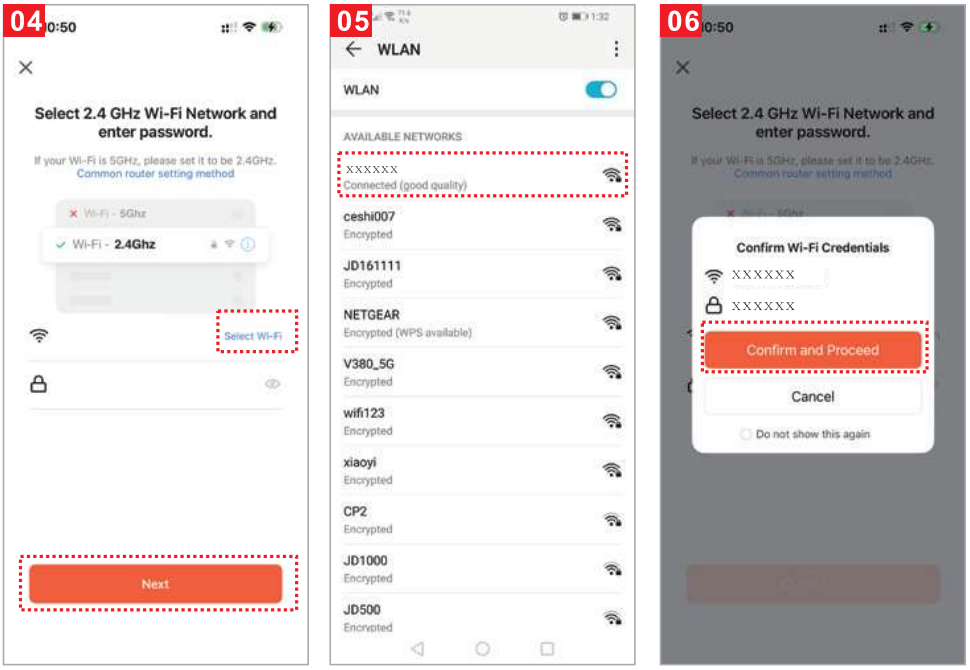

Add The Device-ScanQRcode mode

- Make sure Wi-Fi is available and connected to the Internet.
- Connect the camera to the power, then system startup completed.
- Open "Tuya Smart" APP, press the '+' in the upper right corner of the main screen (Figure 01); choose "Camera & Lock", click "Doorbell Camera" (Figure 02) to add camera; and then click "Next step" (Figure 03);

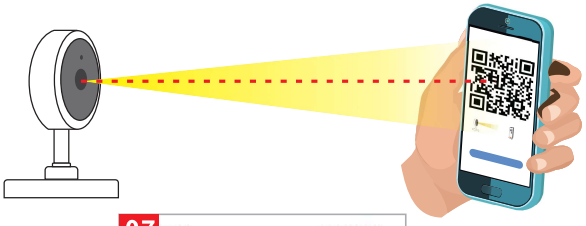

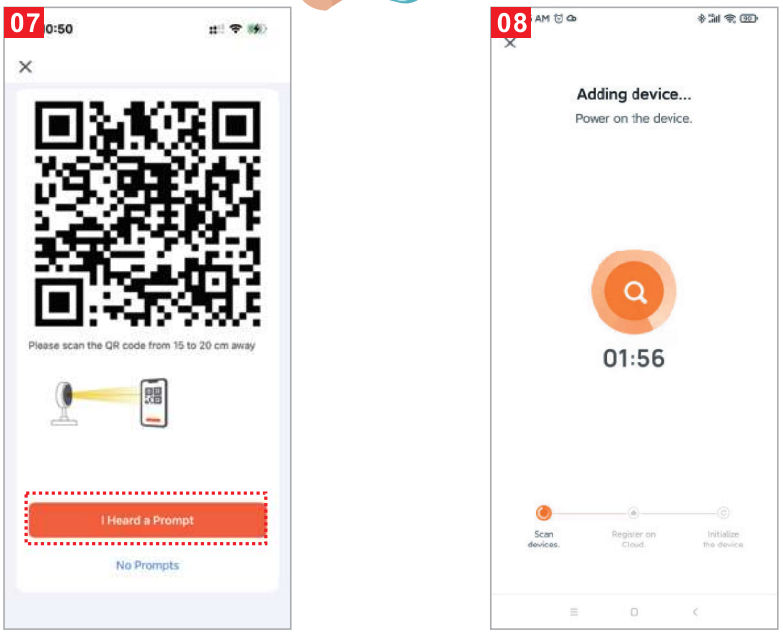

Please note that only 2.4 GHz Wi-Fi network is supported;

- If the mobile phone is not connected to Wi-Fi, please click "Connect to Wi-fi" (Figure 04);
- It will jump to the WLAN interface and connects Wi-Fi (Figure 05).
- If the phone is connected to Wi-Fi (Figure 06);

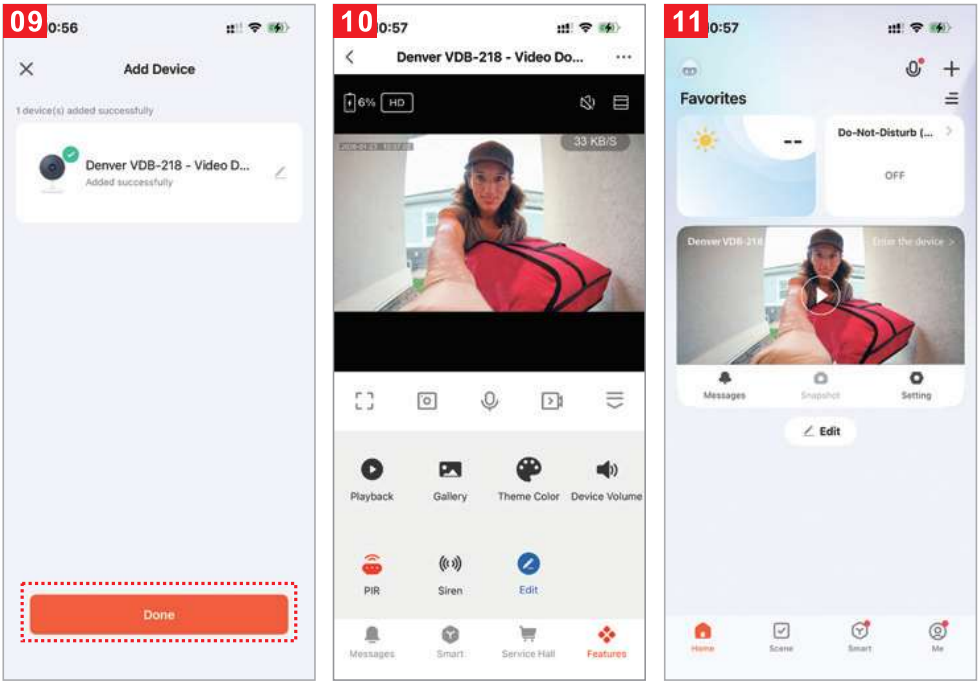

- A QR code will prompt on your screen and you need to scan it with the Smart Camera. (the camera is about 20-30 cm away from the mobile phone lens). Then click "hear the prompt sound" (Figure. 07.)
- "connecting" (Figure. 08);

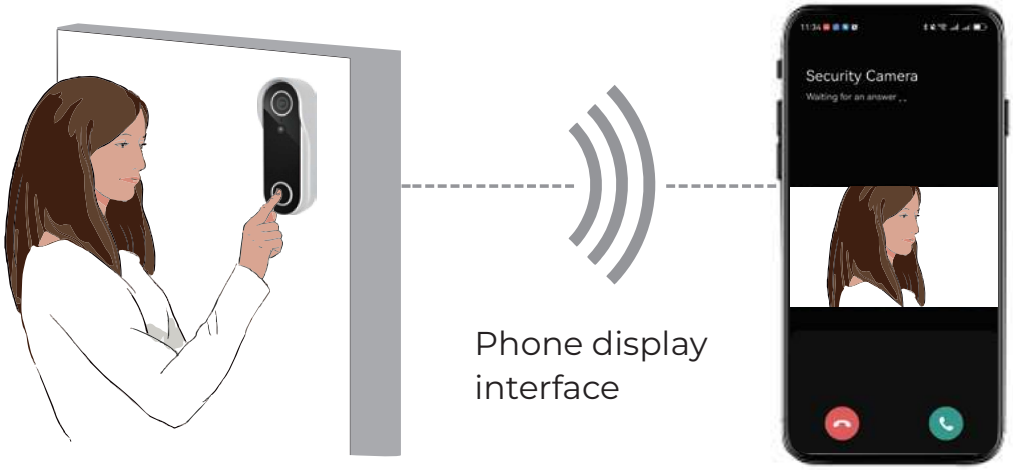

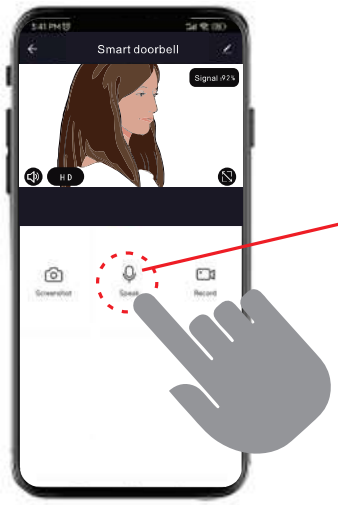

- Connection completed(Figure 09), and click "Done";
- Then jump to preview interface (Figure 10)
- After closing the device preview interface, the interface returns to the APP home page. At this time, the connected device will appear on the APP home page (Figure 11). Then you can click directly to the device interface to see the monitoring situation without re-adding afterwards.

Video Call Function

Call operation diagram

Party B: Hello Party
A: Is anyone at home?

Hold the voice key and talk to the other party

Party A: Hello
Party B: No we left home temporarily.

FAQ:

Q: How do I reset the doorbell?

A: Press and hold the RESET button for around 5 seconds.

Q: How do I share the video doorbell with my family?

A: 1. Tap the doorbell to live view from the home page of the app.
2. Tap the 'Settings' icon on the top right corner of the home page.
3. Select 'Share device'.
4. Tap 'Add sharing', then enter the name of the account you want share to, or you can follow the in-app instructions to set up family sharing.

Q: How do I adjust PIR motion detection sensitivity?

A: 1. From the home page, tap the doorbell to see the live view.
2. Tap the settings icon of the top right corner.

3. Select the PIR and choose the High, Medium, Low level as desired.
Options for PIR motion sensitivity
High: Records and notifies you about every motion. -- Shortest battery life.
Medium: Records and notifies you about motion less often. -- Standard battery life.
Low: Records and notifies you about motion even less often than the medium setting. -- Standard maximum battery life.

Q: How many users can view the video at the same time?

A: Up to 4 users may view the video feed. Both iOS and Android are compatible.

Q: Does the doorbell support 5GHz Wi-Fi?

A: No. The doorbell only supports 2.4GHz Wi-Fi.

Q: The signal is poor on my doorbell.

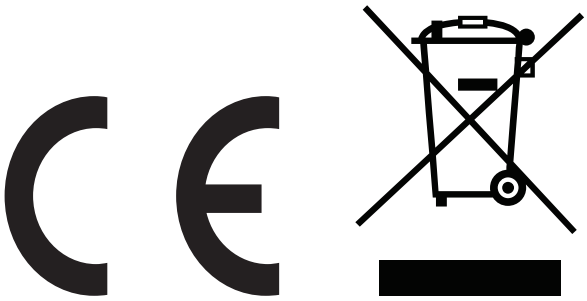

A: Your doorbell may be too far away from your wireless router or you may have some obstructions in between that reduce signal strength. You might try repositioning your router or getting a signal extender/repeater for your wireless router.

Warning!

1. Lithium battery inside!
2. Do not try to open the product!
3. Do not expose to heat, water, moisture or direct sunlight!

Please notice - All products are subject to change without any notice. We take reservations for errors and omissions in the manual.

ALL RIGHTS RESERVED, COPYRIGHT DENVER A/S

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.
