

SAFE-T-CONVECT 2400

The Eurom Safe-T-Convect 2400 is a handy convector heater of no less than 2400 Watt. This allows you to heat a room up to 90 m³, which is made even easier by the handy remote control.

The Safe-T-Convect 2400 is silent, and is therefore ideal as additional heating in, for example, the living room, bedroom or in the home office.

It is also possible to heat up the room extra quickly with the Turbo function. The built-in fan blows the heat through the room faster in Turbo mode. When the room has heated up, the Safe-T-Convect can be returned to the normal position to keep the temperature constant.

Product number	360479
EAN	8713415360479
Powered by	electric
Power	2400 W
Power selection	3
Connection voltage	220-240/50 V/Hz
Control	control panel, remote control
Timer	yes, 0 - 24 hours
Thermostat	yes
Overheat protection	yes
Tip-over switch	yes
