Oil-free radiator 2000W

SHXOFRA20R

Highlights

- **2 heat settings**
  Adjust the heat intensity according to your individual needs
- **LED display & touch control panel**
  gives the appliance a modern touch and makes control particularly intuitive
- **24H timer**
  allows you to plan the operation of the radiator in advance
- **with remote control**
  Enables convenient control of the radiator from a distance
- **Safety**
  Overheating protection and tilt protection for additional safety to minimise potential hazards

Scope of delivery

- Oil-free radiator
- Feet
- Remote control
- Operating instructions

The oil-free radiator with an output of 2000W combines efficiency, user-friendliness and modern technology to offer you a comfortable heating experience.

The two heat settings allow you to adjust the heat intensity according to your individual needs. The LED display provides clear information about the selected settings, ensuring intuitive operation. The touch control offers you additional convenience and makes controlling the radiator child's play.

For even more convenience, the oil-free radiator is equipped with a remote control. This allows you to conveniently control the heating functions from a distance. The 24-hour timer allows you to plan the operation of the radiator in advance to save energy and heat your room exactly when you want it. The adjustable thermostat allows you to set and maintain the desired room temperature.

An additional safety mechanism is the tip-over switch, which switches the radiator off if it accidentally falls over. This prevents potential hazards and ensures safe use of the radiator.
