

Pick it 25A

Phono cartridge for turntables

- Moving Magnet principle
 - Coil windings made from pure silver to achieve higher quality and more dynamic playback compared with conventional MM cartridges
 - Suitable for low to medium tonearm masses
 - 1/2 inch mounting standard
 - High trackability
 - Pick it 25A should be connected to phono MM inputs
 - As with most MM cartridges, stylus can be exchanged
- ⇒ *Only available combined with a Pro-Ject turntable*

Tech data:	Pick it 25A
Stylus type:	elliptical
Weight:	5g
Stylus tip radius:	8 x 18 µm
Frequency response:	20 - 24.000 Hz
Output voltage:	5,5 mV
Channel separation:	>25dB @ 1kHz
Compliance dynamic/lateral:	25 µm/mN
Tracking force range:	1,25-1,75 g
Recommended tracking force:	1,5 g
Tracking angle:	20°
Internal inductance:	580 mH
Recommended load resistance:	47 kΩ
Recommended load capacitance:	200-600 pF

Audiophile vinyl enjoyment because pure silver offers crystal clear performance!

In celebration of our 25th anniversary we release this superior cartridge in cooperation with audiophile phonographic pioneer Ortofon! To realize higher levels of detail, we modified the entry-level-classic OM 10 with pure silver coils, this also opened up the transparency of this cartridge. Pick it 25A is exclusively available with Pro-Ject turntables and is furthermore a proof of Pro-Ject Audio Systems' unstoppable productivity.
