INLINE® 1000 W MULTIPORT POWERSTATION

10x USB-C, PD 3.0, QC 5.0, black

- **Simultaneous charging of up to ten devices:** Enables parallel charging of up to ten USB-C devices with support for Power Delivery 3.0 and Quick Charge 5.0.
- **Powerful charging distribution with up to 1000 watts of total power:** Up to 100 watts per port is reliably provided, even when all ports are in use simultaneously.
- **Professional device organisation with modular separation:** Separators in two sizes included in the scope of delivery ensure tidy storage and a clear structure in the workplace.
- **Flexible use thanks to rack mounting option and robust design:** The included mounting brackets enable permanent installation, ideal for technical rooms and server environments.
- **Comprehensive compatibility for professional IT infrastructures:** Supports modern fast charging standards and is suitable for notebooks, tablets, smartphones and other mobile devices.

The InLine® Multiport Powerstation with a total output of 1000 watts is the ideal solution for professional IT environments where a large number of mobile devices need to be charged simultaneously. Whether in technical rooms, training centres, service points or modern offices, the compact power supply reliably delivers power to notebooks, tablets, smartphones and other USB-C-compatible devices via ten USB-C ports. Up to 100 watts per port are available without any loss of performance at full capacity.

Thanks to the included separators in two lengths, devices can be neatly positioned next to each other and stored in an organised manner. The sturdy construction and the option of rack mounting using the included brackets make the power supply particularly attractive for system houses, IT departments or educational institutions.

Support for current fast charging standards such as Power Delivery 3.0 and Quick Charge 5.0 ensures high compatibility and future-proofing. Conventional USB end devices can also be connected without any problems and are charged reliably.

The InLine® Multiport Powerstation provides professional users with a powerful and flexible charging unit for demanding continuous use.

- 10-port USB-C power supply with optional app control
- Power Delivery 3.0 and Quick Charge 5.0 compatible
- Input voltage: 100–240 V AC / 12 A max.
- Input frequency: 50/60 Hz
- USB-C output:
  5.0 V / 3.0 A / 15.0 W
  9.0 V / 3.0 A / 27.0 W
  12.0 V / 3.0 A / 36.0 W
  15.0 V / 3.0 A / 45.0 W
  20.0 V / 5.0 A / 100.0 W
- Protective functions: Overvoltage protection, short-circuit protection
  Thermal protection with automatic resumption of charging after cooling
  Active cooling at internal temperatures above 70 °C, passive cooling below this value Dimensions (L×W×H): approx. 340 × 213 × 46 mm
- Weight: 3.3 kg (5 kg including all accessories)
- Scope of delivery:
  1× InLine® multiport power supply unit
  11× 123 mm separators
  11× 82 mm separators
  2× mounting brackets for rack mounting
  1× power cable, approx. 1.5 m
  1× operating instructions (DE/EN)

Technical Data	
Cable included:	EU-Power cable
Colour:	Black
Display:	No
GaN:	No
Outputs:	10x USB-C
Output voltage:	5.0 V DC - 20.0 V DC
Power Delivery:	Yes
Quick Charge:	Yes
Type:	USB power adapter
Wireless Charging:	No

Item No.	Max. power	EAN
31516B	1000 W	4043718343607
