Epson **TM-m50 (132): USB + Ethernet + NES + Serial, Black, PS, EU**

DATASHEET / BROCHURE

The TM-m50 has been developed for retailers looking for a stylish and compact receipt printer that will fit in with their current POS system.

The TM-m50 provides similar capabilities to a traditional 'legacy' POS printer including a serial connection port, USB-A connection and 180dpi. High volume POS customers will benefit from fast print speeds of up to 350mm/s, and be confident that the printer is supported by Epson's proven quality and reliability.

Compact cube design

The cube design, available in white or black, means it will complement the aesthetics of any modern retail store, and the small footprint means it can fit easily on the counter-top or underneath on the shelf edge. Users of the TM-m50 will also benefit from easy paper loading and advanced paper saving options.

Reliable and easy to use

Epson is the market leader in POS printing[1] with a heritage of producing high-quality and reliable systems. The TM-m50 is a highly intuitive out-of-the-box solution that features: fast print speeds of up to 350mm/s, enhanced printhead and auto-cutter, and flexible drop-in paper loading (front or top).

Legacy print features

The TM-m50 is a feature packed, high performance solution with the legacy features required to allow customers seamless integration into their current systems.

Enhanced connectivity

Flexible connectivity options include serial port and USB-A.

KEY FEATURES

- **Cube design**
  Stylish and discreet form to complement retail environments
- **Legacy fit**
  Seamless integration into existing systems
- **Easy to use**
  A highly intuitive out-of-the-box solution
