

Highlights

- **Powerful operation**
With an output of 90 W
- **Generous water tank**
The 25-litre water tank enables long-lasting cooling
- **Wide airflow range**
The air cooler achieves an airflow range of up to 12 metres
- **High air circulation**
With a maximum air circulation of 1200 m³/hour
- **Easy to stow away**
The completely removable lower part (water tank) makes it easy to stow away and makes storage effortless
- **Dry air function**
The dry air function protects the honeycomb filters from bacteria and mould growth during storage by removing residual moisture.
- **9h timer**
to control the operation according to your needs.
- **WIFI**
Control the air cooler conveniently via your smartphone or tablet using a WLAN connection.

Scope of delivery

- Air cooler

With a rated output of 90 watts and a 25-litre water tank, this air cooler provides long-lasting and powerful cooling that makes frequent refilling unnecessary.

With 3 speed settings, you can adjust the air circulation to suit your needs. The air cooler achieves an airflow range of up to 13 metres and distributes the cool air in the room with a maximum airflow of 1500 m³ per hour. The clear LED display ensures user-friendly control and monitoring.

Thanks to the 3 side air inlets and the special honeycomb structure cooling filter on one side, the cooling performance is maximised and the air is processed efficiently. The completely removable base (water tank) makes it easy to clean and store the appliance during storage.

For added convenience, the dry air function protects the honeycomb filters from bacteria and mould growth by removing residual moisture.

Convenient Wi-Fi control via your smartphone or tablet gives you additional flexibility.

- Operating instructions
- 2xcooling batteries
- Castors

Warranty period

- 2 years

Removable water tank

Convenient storage

Specifications:

- Voltage: 220-240~50Hz
- Power: 90 W
- Water tank capacity: 25 litres
- 3 speed settings
- 3 wind modes (normal/natural/sleep)
- Airflow range: 12 metres
- Air flow max. 1200 m³/hour
- With LED display & control panel
- 1-9 hour timer
- Volume: ≤55 dB(A)
- Completely removable lower section (water tank) for easier storage
- Dry air function for the honeycomb filters to prevent bacteria and mould caused by wet storage
- With memory function in the event of a power failure
- Protection function for empty water tank
- WIFI
- With remote control

Dimensions:

- Product (W×H×D): 418×840×333 mm
- Packaging (W×H×D): 454×600×386 mm
- Net/gross weight: 7.1 kg / 10.5 kg
