ROCK608

Rock design outdoor loudspeaker

ROCK608 is a low impedance two-way loudspeaker that produces a hi-fi sound quality and has a wide dispersion. An ideal loudspeaker to bring music to your garden, outdoor area of your restaurant or terrace in an inconspicuous way.

The ROCK608 loudspeakers are weatherproof and design allows them to disappear into the environment. When you have installed the ROCK loudspeakers you should not be surprised that even working in your garden will become a pleasure.

Who doesn't want to listen to music while working in your garden or relaxing on your terrace?

The applications where these loudspeakers can be used are enormous. They can be used in gardens, terraces, recreation parks, outdoor swimming pools...

The complete loudspeaker (the plasticized brass wire included) is weatherproof. The ROCK608 can be used with a standard stereo amplifier.
