## FACTSHEET : AERO - Air cleaner

Elements such as pollen, mites and dust lead to much poorer air quality inside the home compared to outside. With the intelligent AERO air purifier, you can quickly improve your sense of wellbeing in your own home. You can see the current air quality displayed on a colour indicator. **Blue** means excellent, **green** stands for good, **purple** is moderate and **red** means poor. The AERO also impresses due to its **quietness and low power consumption**.

The high-performance air purifier stands out thanks to its **so-phisticated technology**. The unit includes a coarse filter, a formaldehyde filter, a charcoal filter and a HEPA filter, and therefore achieves the **best possible results**.

### Technical informations

- Power: 50 Watt
- Supply: 230 Volt
- Color: white
- Certified: CE
- Guarantee: 2 years

### Specifications

- Air circulation: 300 m<sup>3</sup>/h
- 5 speed mode
- Night mode
