PLUS**

EASY SWITCH
FROM ONE BIKE TO THE OTHER

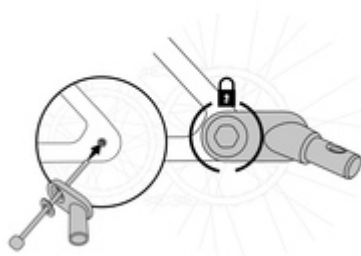

MORE FLEXIBILITY IN YOUR DAILY LIFE

Mom brings the kids to kindergarten and dad picks them up? Thanks to the separate hitch you can spontaneously decide and easily switch the Dryk Duo bike trailer from one bike to bike.

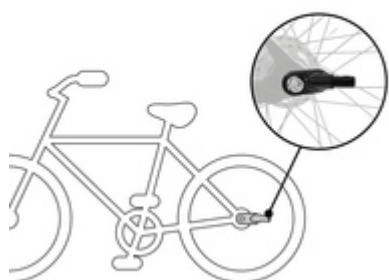

EASY INSTALLATION ON YOUR BIKE

The hitch can be safely installed on your bike in few steps and without additional tools, allowing you to equip as many bikes as you wish with a hitch that is compatible with the bike trailer.

More flexibility in your daily life with the Dryk Duo or Dryk Duo Plus bike trailer

Who will bring your little passenger to nursery next? Who will do the picking up? With an extra hitch you will be much more flexible when using the Dryk Duo / Plus bike trailer regularly. Having a hitch on each bike will make the switch of the trailer from one bike to another a child's play.

The hitch can stay on your bike for as long as you want, allowing you to easily couple the Dryk Duo to any other bike at any time, even when spontaneously changing your plans.

The Dryk Duo hitch can be safely installed on your bike in few steps and without additional tools.

The hitch is compatible with the hauck Dryk Duo or Dryk Duo Plus bike trailer. When the hitch is safely installed on the bike it can be coupled with the bike trailer's drawbar. Thanks to the easy handling you will be ready to go in the blink of an eye. The hitch can stay on your bike – no need to remove it after each ride. Also, the Dryk Duo hitch is designed to be discreet but ready to use at any time and does not disturb when you are biking without the trailer.
