ENERGY♥SISTEM

Introduction

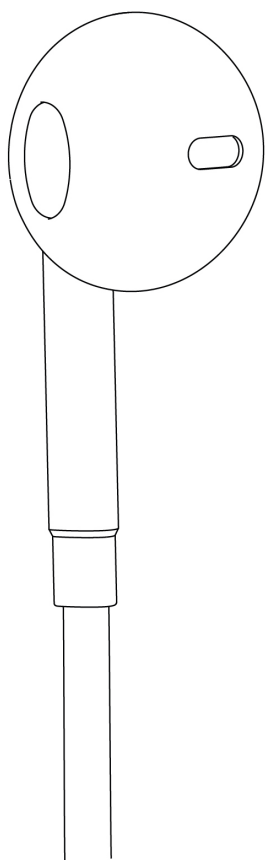

- Thank you for trusting our company and buying your new earphones. We hope you enjoy them.
- We recommend you reading this guide to familiarize yourself with your earphones before using them.

Care and maintenance

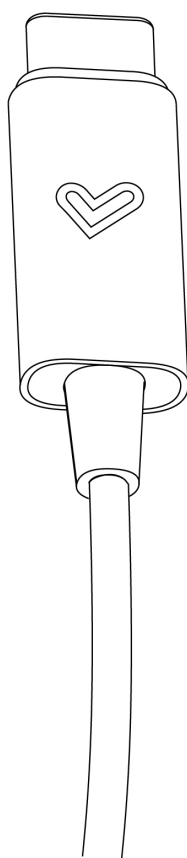

- Do not expose your earphones to impacts, dust, humidity or high temperatures.
- Do not use neither corrosive nor abrasive cleaning products.
- Do not disassemble the device. All modifications are to be carried out exclusively by qualified staff of Energy Sistem Technology, S.A.
- Avoid pulling and twisting cables to extend the life of your earphones.

General overview

- Make the most of your smartphone with the Type-C connector.
- HD sound thanks to its built-in digital converter (DAC).
- Control all volume and music playback functions with the 3-button controller.
- Answer your calls by simply clicking on the in-line microphone.
- Carrying case to take them along comfortably while avoiding scratches.

1. Driver
2. Type-C connector
3. Controller

Operating instructions

- Plug your source device into the earphones using the *Type-C connector (2)*.
- Use the in-line *Controller (3)* to turn the volume up or down, control playback functions or answer calls. All this

without touching your mobile phone.

Call control

You will be able to control your calls from your earphones if you plug them into your mobile phone.

Answering a call

Press the Play/Pause button on the *Controller (3)* once to answer an incoming call.

Ending a call

Press and hold the Play/Pause button on the *Controller (3)* for about 2 seconds to end a call.

Rejecting a call

Press and hold the Play/Pause button on the *Controller (3)* for about 2 seconds to reject a call.

*Controls may vary depending on the settings of the source device you are using to play your music.

Safety

- Before using the earphones, turn the volume down and slowly turn it up until you set an appropriate volume level.
- Avoid noisy environments that force you to turn up the volume really high when using your earphones.
- Listening to loud music over a long period of time may cause your ears to get used to high volume levels, resulting in irreversible hearing loss.
- Adjust the volume of your earphones to hear important external sounds.

Warranty
